

Preface

4th International Conference on Humanities, Arts, and Social Sciences (HASS 2023) was held from August 26-27, 2023 in New York, United States. The conference is co-organized by Guangzhou College of Commerce and Asian Union of Information Technology. This HASS welcomes the sociologists, artists, designers, humanists, educators, teachers, policy makers, scholars, and graduate students, etc. from different cultural backgrounds to present and discuss research, developments and innovations in all fields of Humanities, Arts, and Social Sciences.

The aim of HASS 2023 is to provide a platform for sociologists, artists, designers, humanists, educators, teachers, policy makers, scholars, and graduate students, etc. from different cultural backgrounds to present and discuss research, developments and innovations in all fields of Humanities, Arts, and Social Sciences. It provides opportunities for the delegates to exchange new ideas and application experiences, to establish business or research relations and to find global partners for future collaboration.

HASS 2023 received 131 manuscripts. And 69 submissions had been accepted by our reviewers. All papers were reviewed using a double-blind review process: authors declared their names and affiliations in the manuscript for the reviewers to see, but reviewers did not know each other's identities, nor did the authors receive information about who had reviewed their manuscript. Many thanks go as well to all of the reviewers who helped us maintain the high quality of manuscripts. Lastly, sincere thanks to the members of the conference committees and organizing team for their hard work.
